

Reaching the Finish Line

Russell A. Mellor

**President and CEO Yankee Atomic Electric
and Connecticut Yankee Atomic Power Co.**

NRC Regulatory Information Conference

March 5, 2002

Session T5: Decommissioning

Confidence in Completion

- ◆ Public confidence in nuclear power depends on well-executed closure
- ◆ Capture lessons learned
- ◆ Liberating decommissioned sites from fuel
- ◆ Property reuse plans
- ◆ Corporate responsibility

Learning From Decommissioning

- ◆ Decommissioning plants share experiences
- ◆ Consolidated decommissioning guidance
- ◆ Plant designs must support decommissioning
- ◆ Operate and regulate plants with decommissioning on radar screen
- ◆ Awareness of transition pitfalls
- ◆ Staff retention
- ◆ Early community involvement

NRC Public Involvement

- ◆ Public perspective critical
- ◆ Continue outreach efforts
- ◆ Enhance public speaking skills
- ◆ Sending a consistent message

License Termination Plan

- ◆ Successful completion critical to public confidence
- ◆ Allow and promote electronic review
- ◆ Current review time 2 years
- ◆ Retention of skilled reviewers critical to make the finish line
